LESSON 3 - Power Start & Controlled Stop

WHICH CAME FIRST?

**Which came first,
the stoplight or
stop sign?**

ANSWER

Stoplight, by 47 Years!

The first stoplight appeared in London in 1868 and lasted two months before it blew up. It took engineers 46 years to create the next stoplight in Cleveland, Ohio in 1914 after the increase in automobiles.

An officer in Detroit, Michigan invented the first stop sign in 1915 after spending his days directing traffic.

GREAT JOB!
